Instructional Membership

The US Baseball Club offers unlimited instruction for a monthly fee of \$150.

This provides our members an incredible value since private instruction costs on average \$55 per hour. After just 3 hours of instruction per month, you are saving money!

The first 90 minute lesson is free! No contracts or commitments needed.

More importantly, the quality of instruction provided by the US Baseball Club is unmatched! Why? Because we use scientific principles to support the hitting and throwing mechanics we teach.

We don't offer opinions and philosophies, we teach science and you can't argue with science!

Our players progress very quickly because they understand what to do, how to do it, and most importantly, WHY to do it a certain way.

The swing taught by the US Baseball Club is a patentable swing supported by scientific principles! And regarding pitching ask us about our 10 minute challenge. We can throw for 3 minutes, talk for 7 minutes and increase your velocity by 3 mph!

Remember your first lesson is free!
